COURSEWORK

UNDERGRADUATE
Programming Fundamentals
Computer Architecture
Data Structure and Algorithm
Object Oriented Programming
Digital System Design
Communication System.
Microprocessors.
Computer Network and Security.

SKILLS

PROGRAMMING
Languages:
- C++
- TypeScript
- JavaScript
- Python

Others:
- ReactJs
- Angular
- NodeJs
- Graph QI
- MongoDB
- PostgreSQL
- NextJs

Tools:
- Git
- Postman
- Nginx
- Docker

EXPERIENCE

SOFTWARE DEVELOPER | CyberSpark UK
Feb 2024 - Present (remote)

SOFTWARE DEVELOPER INTERN | CyberSpark UK
Dec 2022 - Feb 2024 (remote)

FREELANCE DEVELOPER | Harud Studios
August 2023 – Present

PROJECTS

Connectivity Suite
Project link
A web application built in angular which will be used in autonomous vehicles in Germany. This app supports everything from vehicle tracking to controlling. You can also monitor vehicle health status and set trip paths and much more.

Alilals Agrico
Project link
A booking application for booking orchards and agricultural products along with blogging features. Made using NextJs and Shadcn. For database purposes I used firebase and VPS for hosting.

Algorithm Visualizer
Project link
Web-app using which you can visualize different algorithms like binary search, sorting algorithms etc.

Cryptoverse
Project link
Web-app made using ReactJS from where you can get all the necessary details regarding any crypto-currency. I have also used Ant Design as the UI library for this project.

ACHIEVEMENTS

DEVELOPER OF THE MONTH - JUNE 2024
Won the developer of the month at CyberSpark for consistent performance where I solved various critical issues in the connectivity suite

BEST DELEGATE MODEL UNITED NATIONS 2019
Won the MUN 2019 as a best delegate representing Russian Federation.

GOVERNOR'S AWARD
National level scout participated in various camps. Won the states highest award for the best scout.
